Introduction

You can now review your feedback report. This report consists of results from the feedback survey performed by you and your feedback giver(s). It provides you with valuable insights to your strengths and weaknesses, aspects of your performance and behavior that you may want to develop and improve.

The report describes how others currently perceive you in your daily work and provides you with an excellent tool to discuss and take positive action on any requirement for improvement and development. The report gives a random indication and cannot be considered as a final assessment.

Meaning of scores

Score 1

Insufficient: the desired behavior is not quite developed and is almost never displayed in the right manner. A very big investment for further development is required.

Score 2

Weak: the desired behavior is less developed and is not often displayed in the right manner. A solid investment for further development is required.

Score 3

Moderate: the desired behavior is moderately developed and is occasionally displayed in the right manner. There is quite a lot of room for further development.

Score 4

Sufficient: the desired behavior is sufficiently developed and is regularly displayed in the right manner. There is still room for further improvement.

Score 5

Good: the desired behavior is well developed, and is typically displayed in the right manner.

General overview

The cumulative score for all competencies surveyed is displayed in the diagram. This provides complete insight into the results of your self-assessment as well as the results from feedback given by your selected feedback giver(s). Large differences (more than 1 point difference) are worth analyzing further by referring to the "Detailed overview per feedback giver" or "Detailed Overview"

Overview per competency

The detailed overview shows the scores of each feedback giver per competency measured. This will give you valuable insight in the differences between scores from the subject, colleagues, direct reports, co-workers, customers or other feedback givers.

Analysis of strengths and weaknesses

This section shows the strengths and weaknesses of the subject's behavior in daily work as perceived by others. Under "strengths" you will find the 10 highest scores on examples of behavior. Productive behavior is frequently shown and non-productive behavior (indicated with the word "inverse" next to the example of behavior) is seldom shown. These examples of behavior are make a positive contribution to the competency development and the subject's behavior in daily work. Under "weaknesses" you will find 10 examples of behavior with the lowest score. Productive behavior is infrequent as opposed to frequent non-productive behavior. These examples of behavior present scope for varying degrees of improvement.

Strengths: 10 behavioral examples with the highest score

Competencies	Questions	Average	CP
Forming Judgment	suggests practical and feasible solutions	5	4
Forming Judgment	balances the right priorities	5	5
Forming Judgment	balances pros and cons	5	5
Forming Judgment	is able to assess people`s qualities	5	4

Result-Orientedness	takes directive action when objectives are in danger of not being attained	3	4
Controlling Progress	checks progress regularly	3	5

Detailed overview per competency

This overview provides all the results for each competency. You can analyze the scores per item and view your highest and lowest score for each competency. Respectively you will find: the definition, the scores per feedback giver, and the scores per example of behavior. On the right side of the diagram you will see the GAP assessment. In the GAP assessment, the variance between your self-assessment score and that of your feedback giver(s) is shown. Scores lower than -1 or higher than +1 indicate that there is a significant difference between your self perception and the perception of the other(s).
